Development using Jest,
Mocha, PHPUnit, WebdriverIO

Performance Testing & API
Postman, JMeter

Design & Concept

Experience maps, user journeys and user flows.

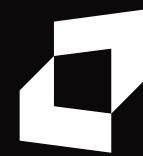

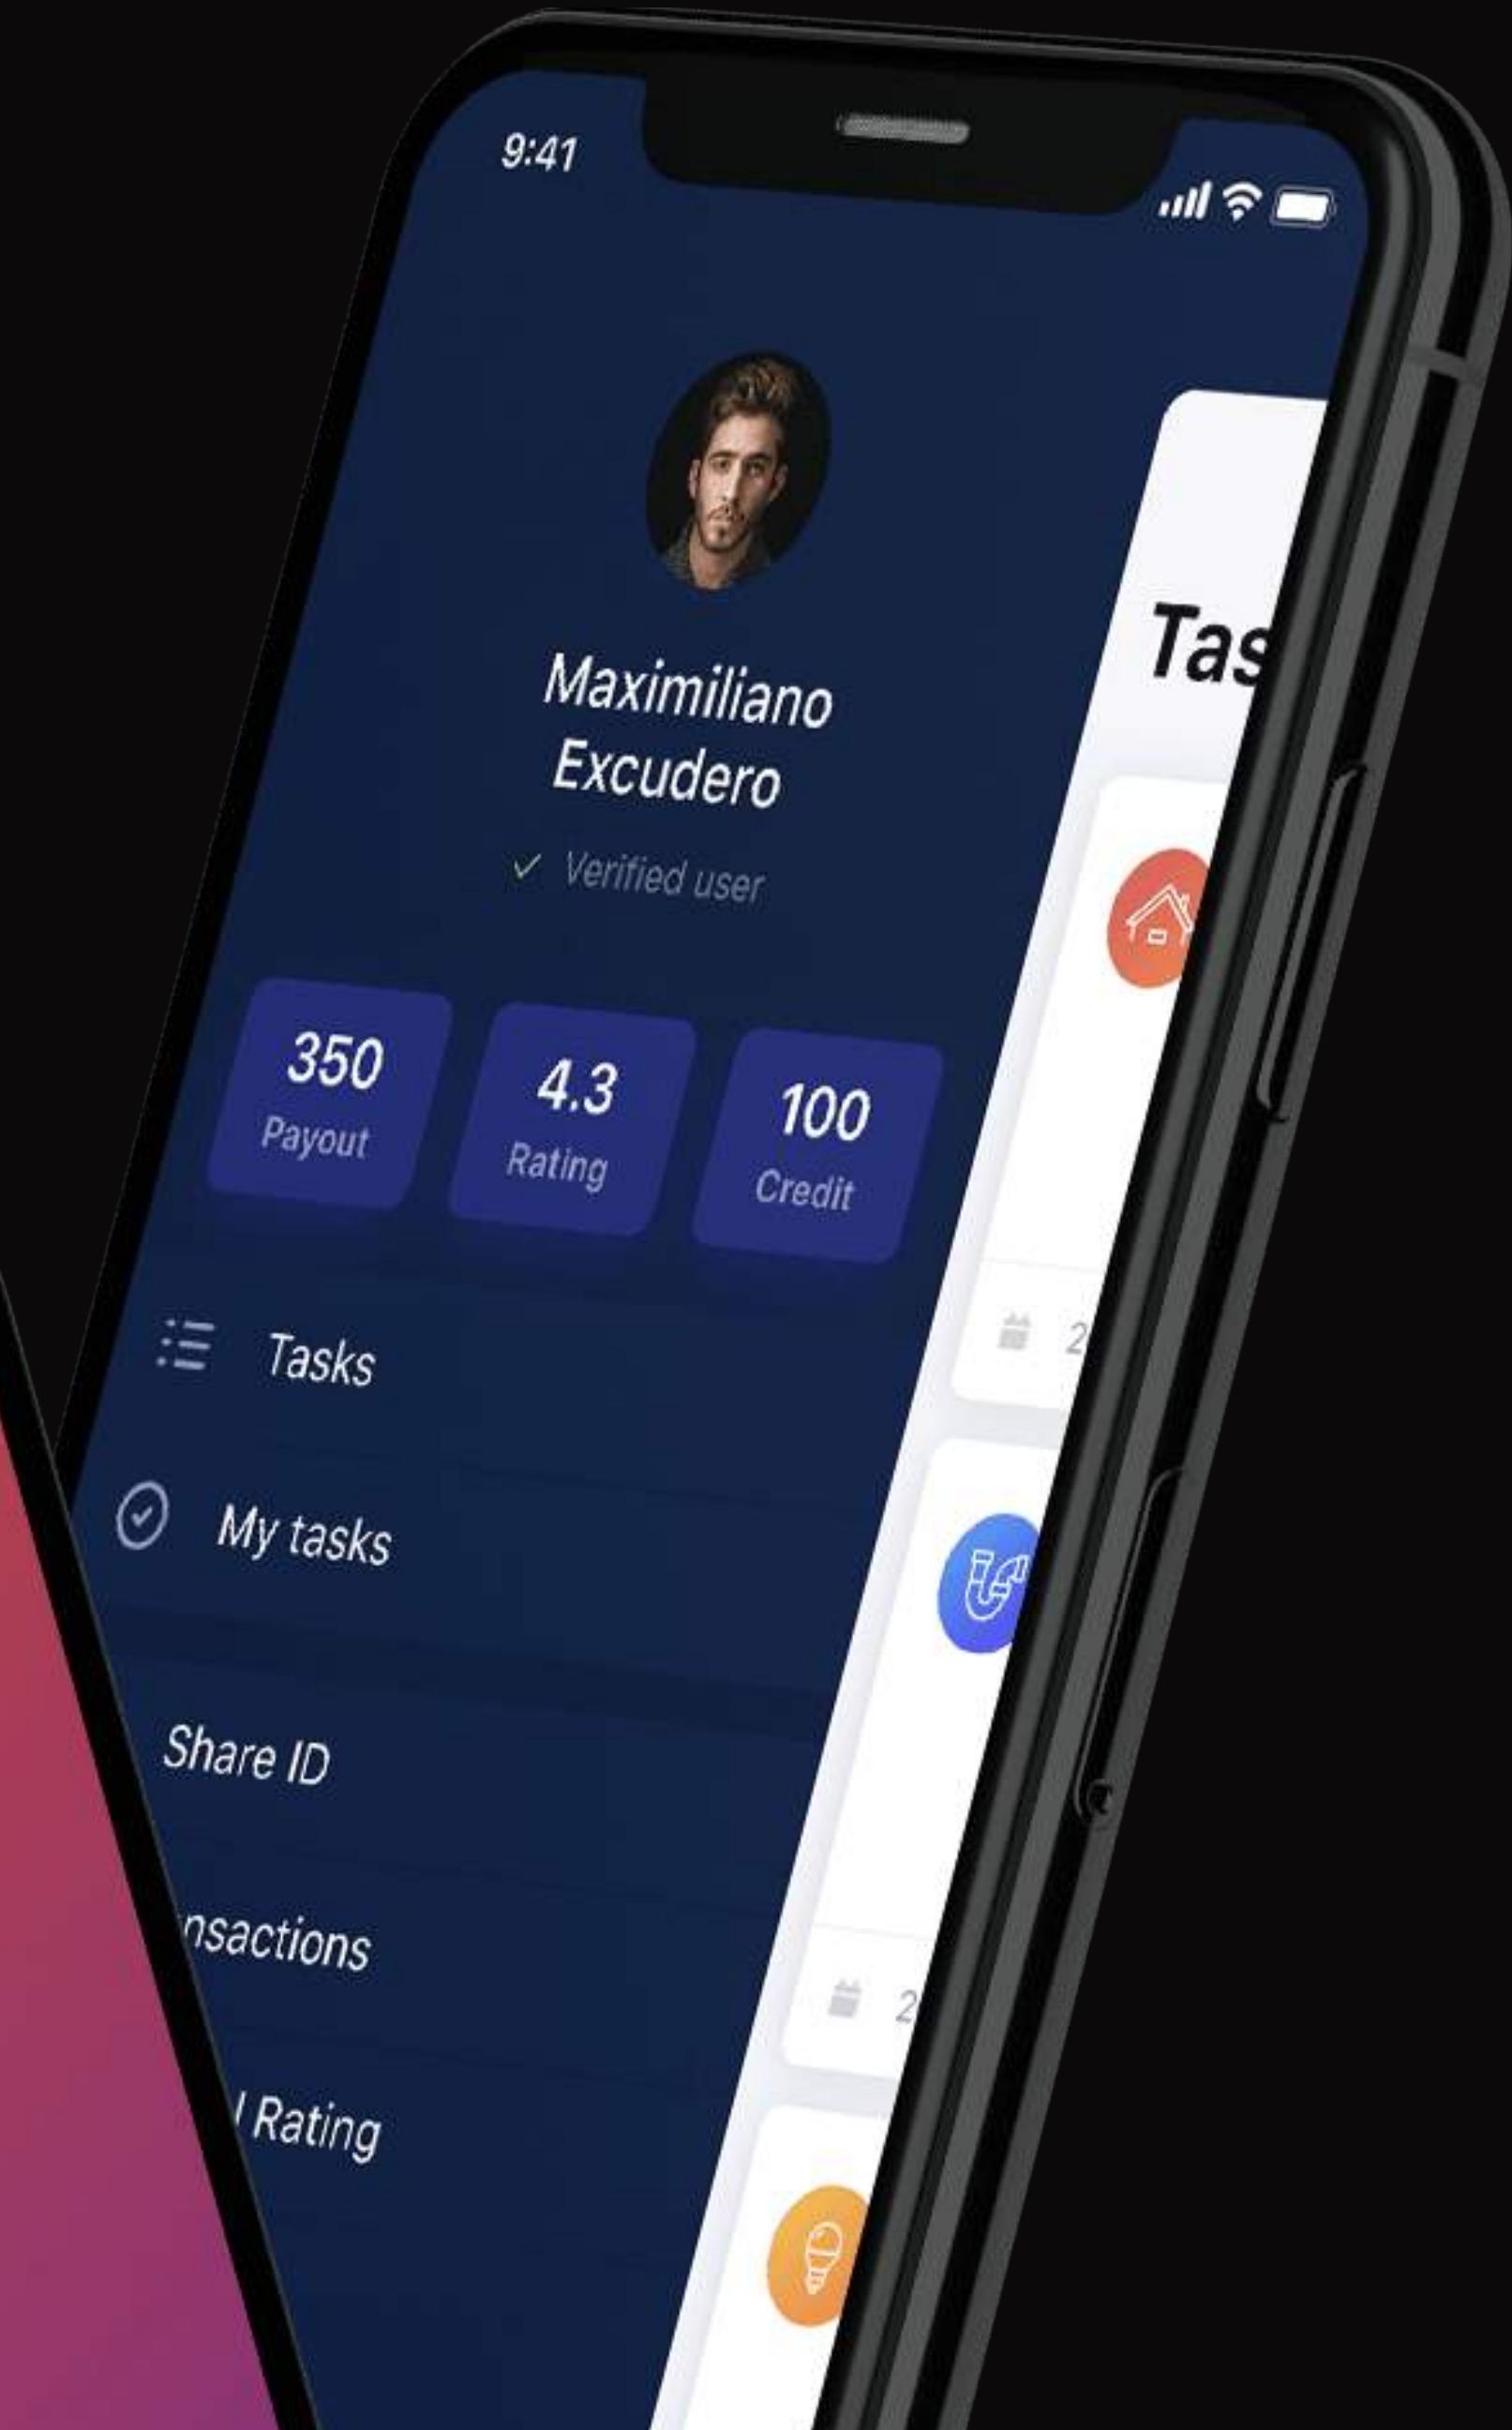

Information Architecture. UX Wireframes.

Interactive Mockups. Assets.

Mobile Apps

iOS/Android. Fullcycle native
and cross-platform development.
Cloud driven applications.

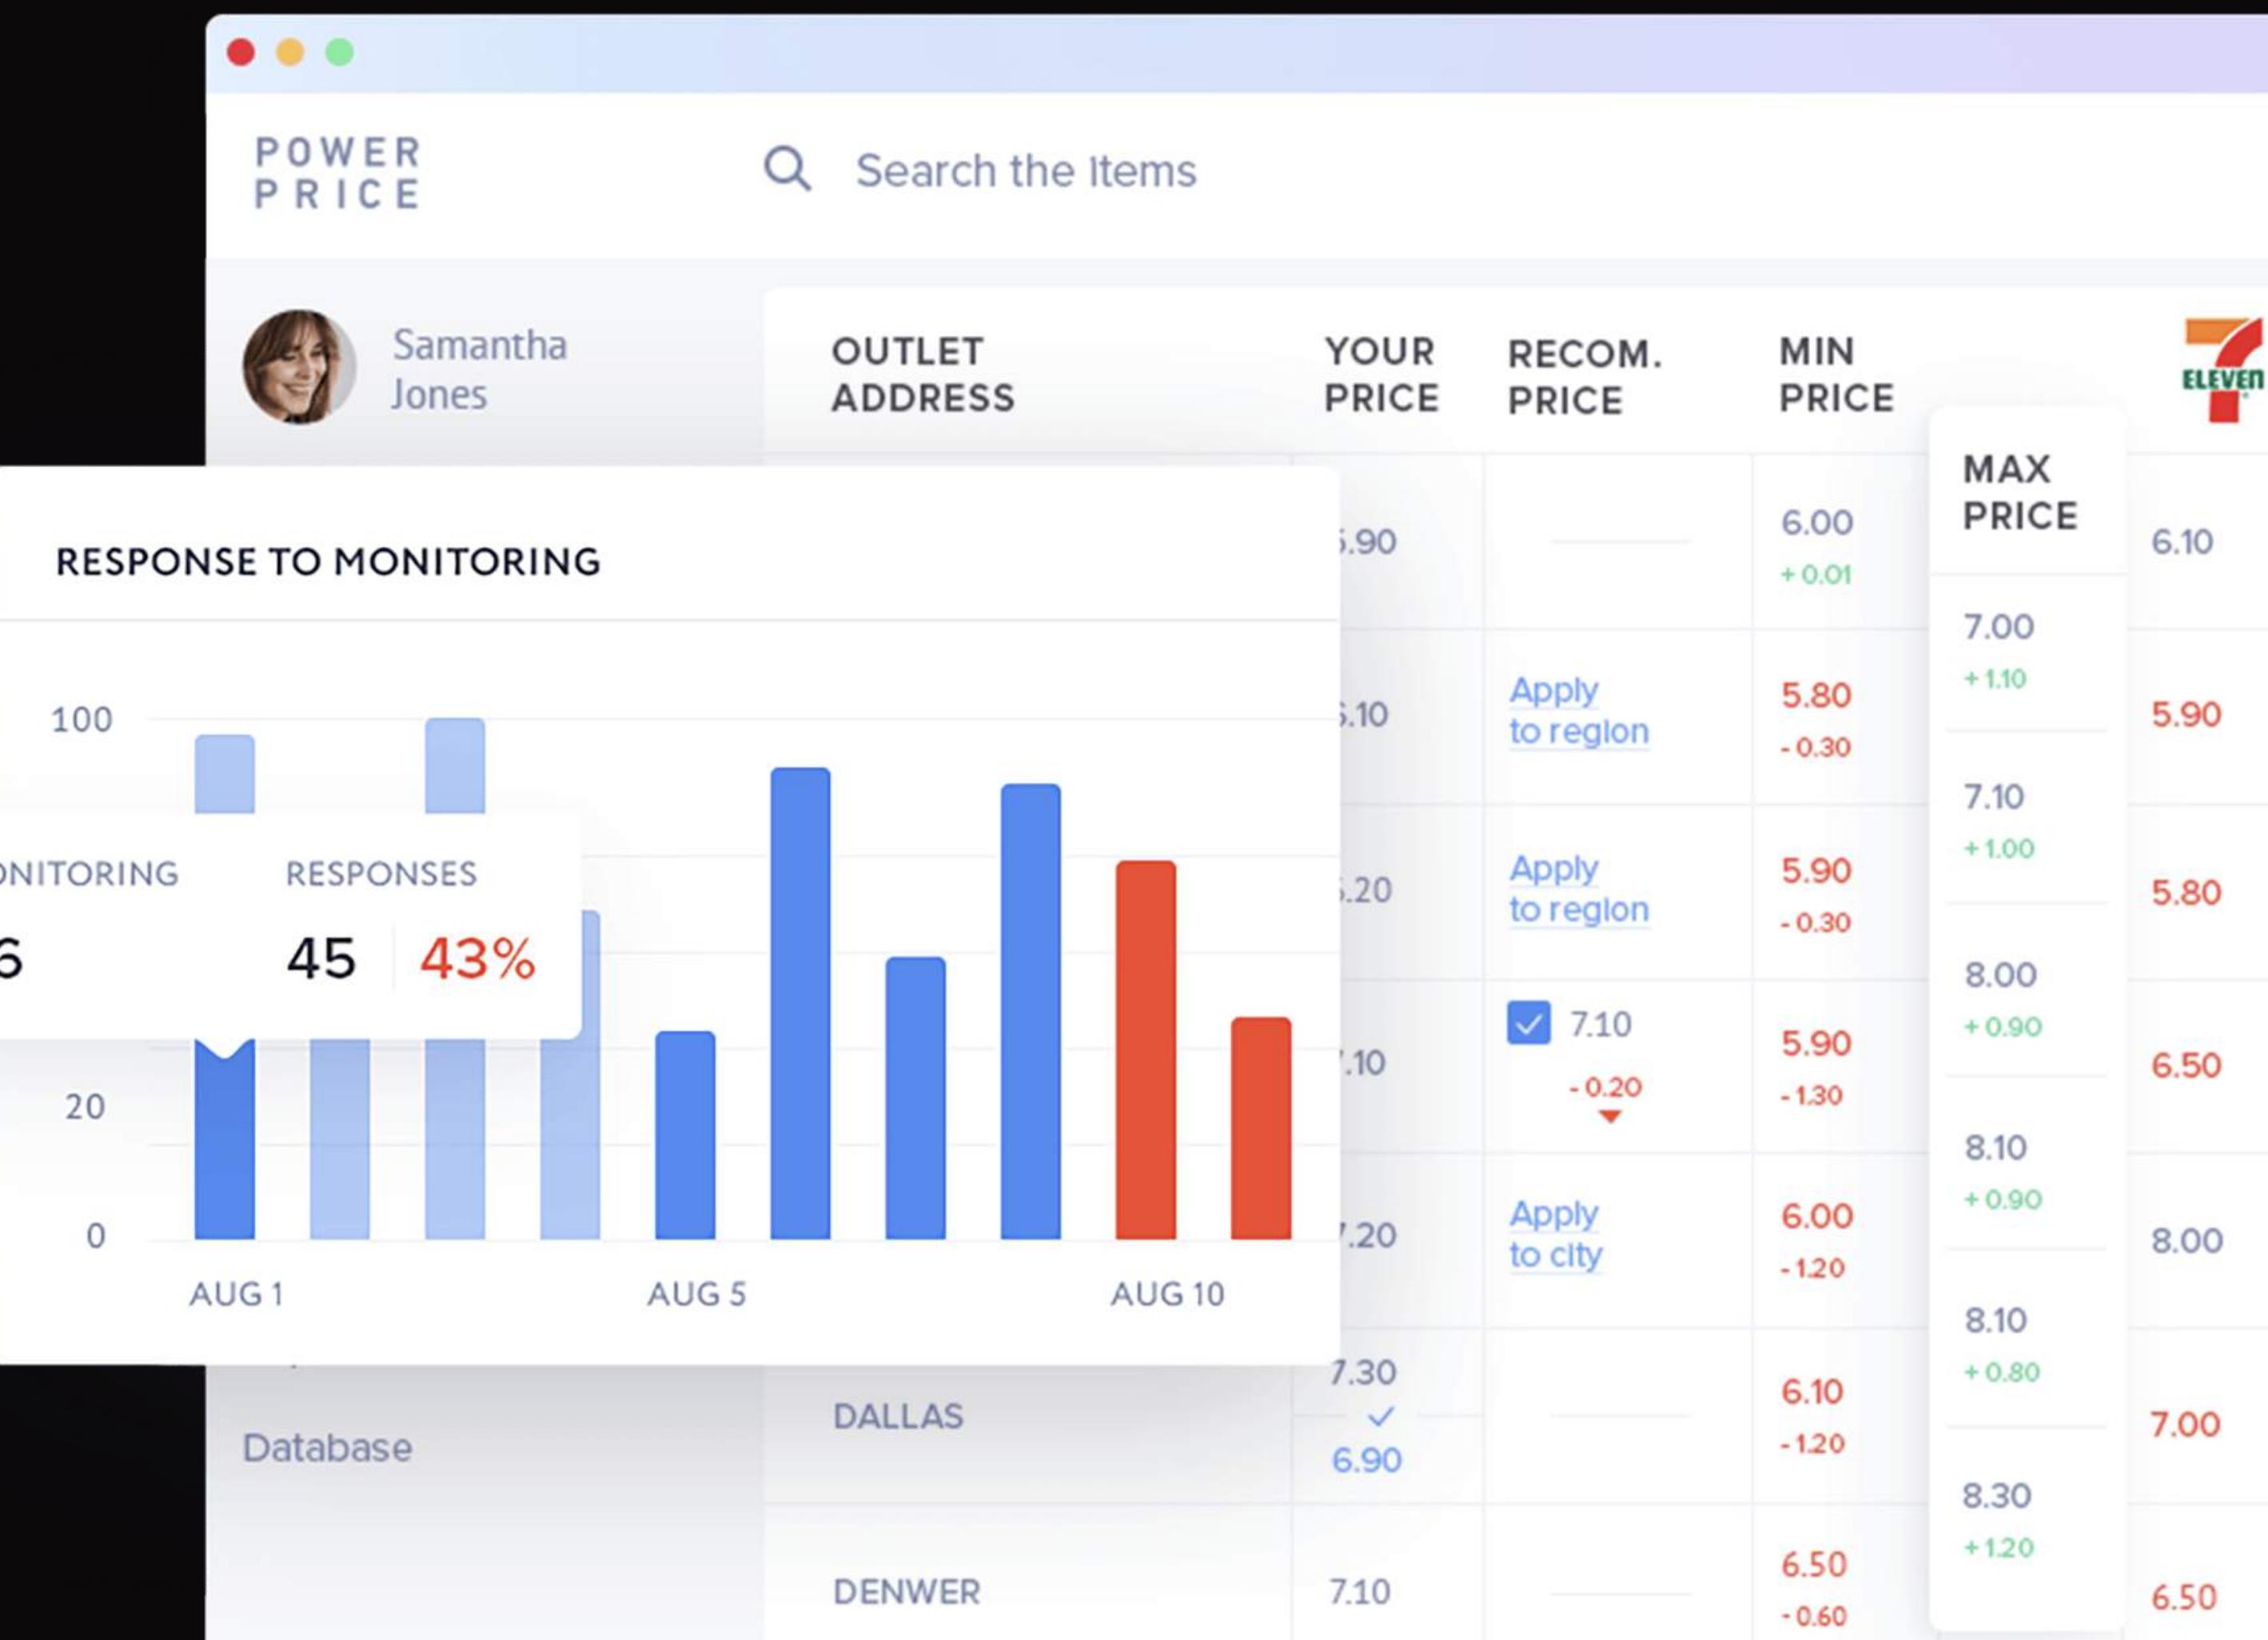

Web Apps

Cross-browser frontend development.

Adaptive frontend development.

Manual and automated frontend testing.

Developed solution audit.

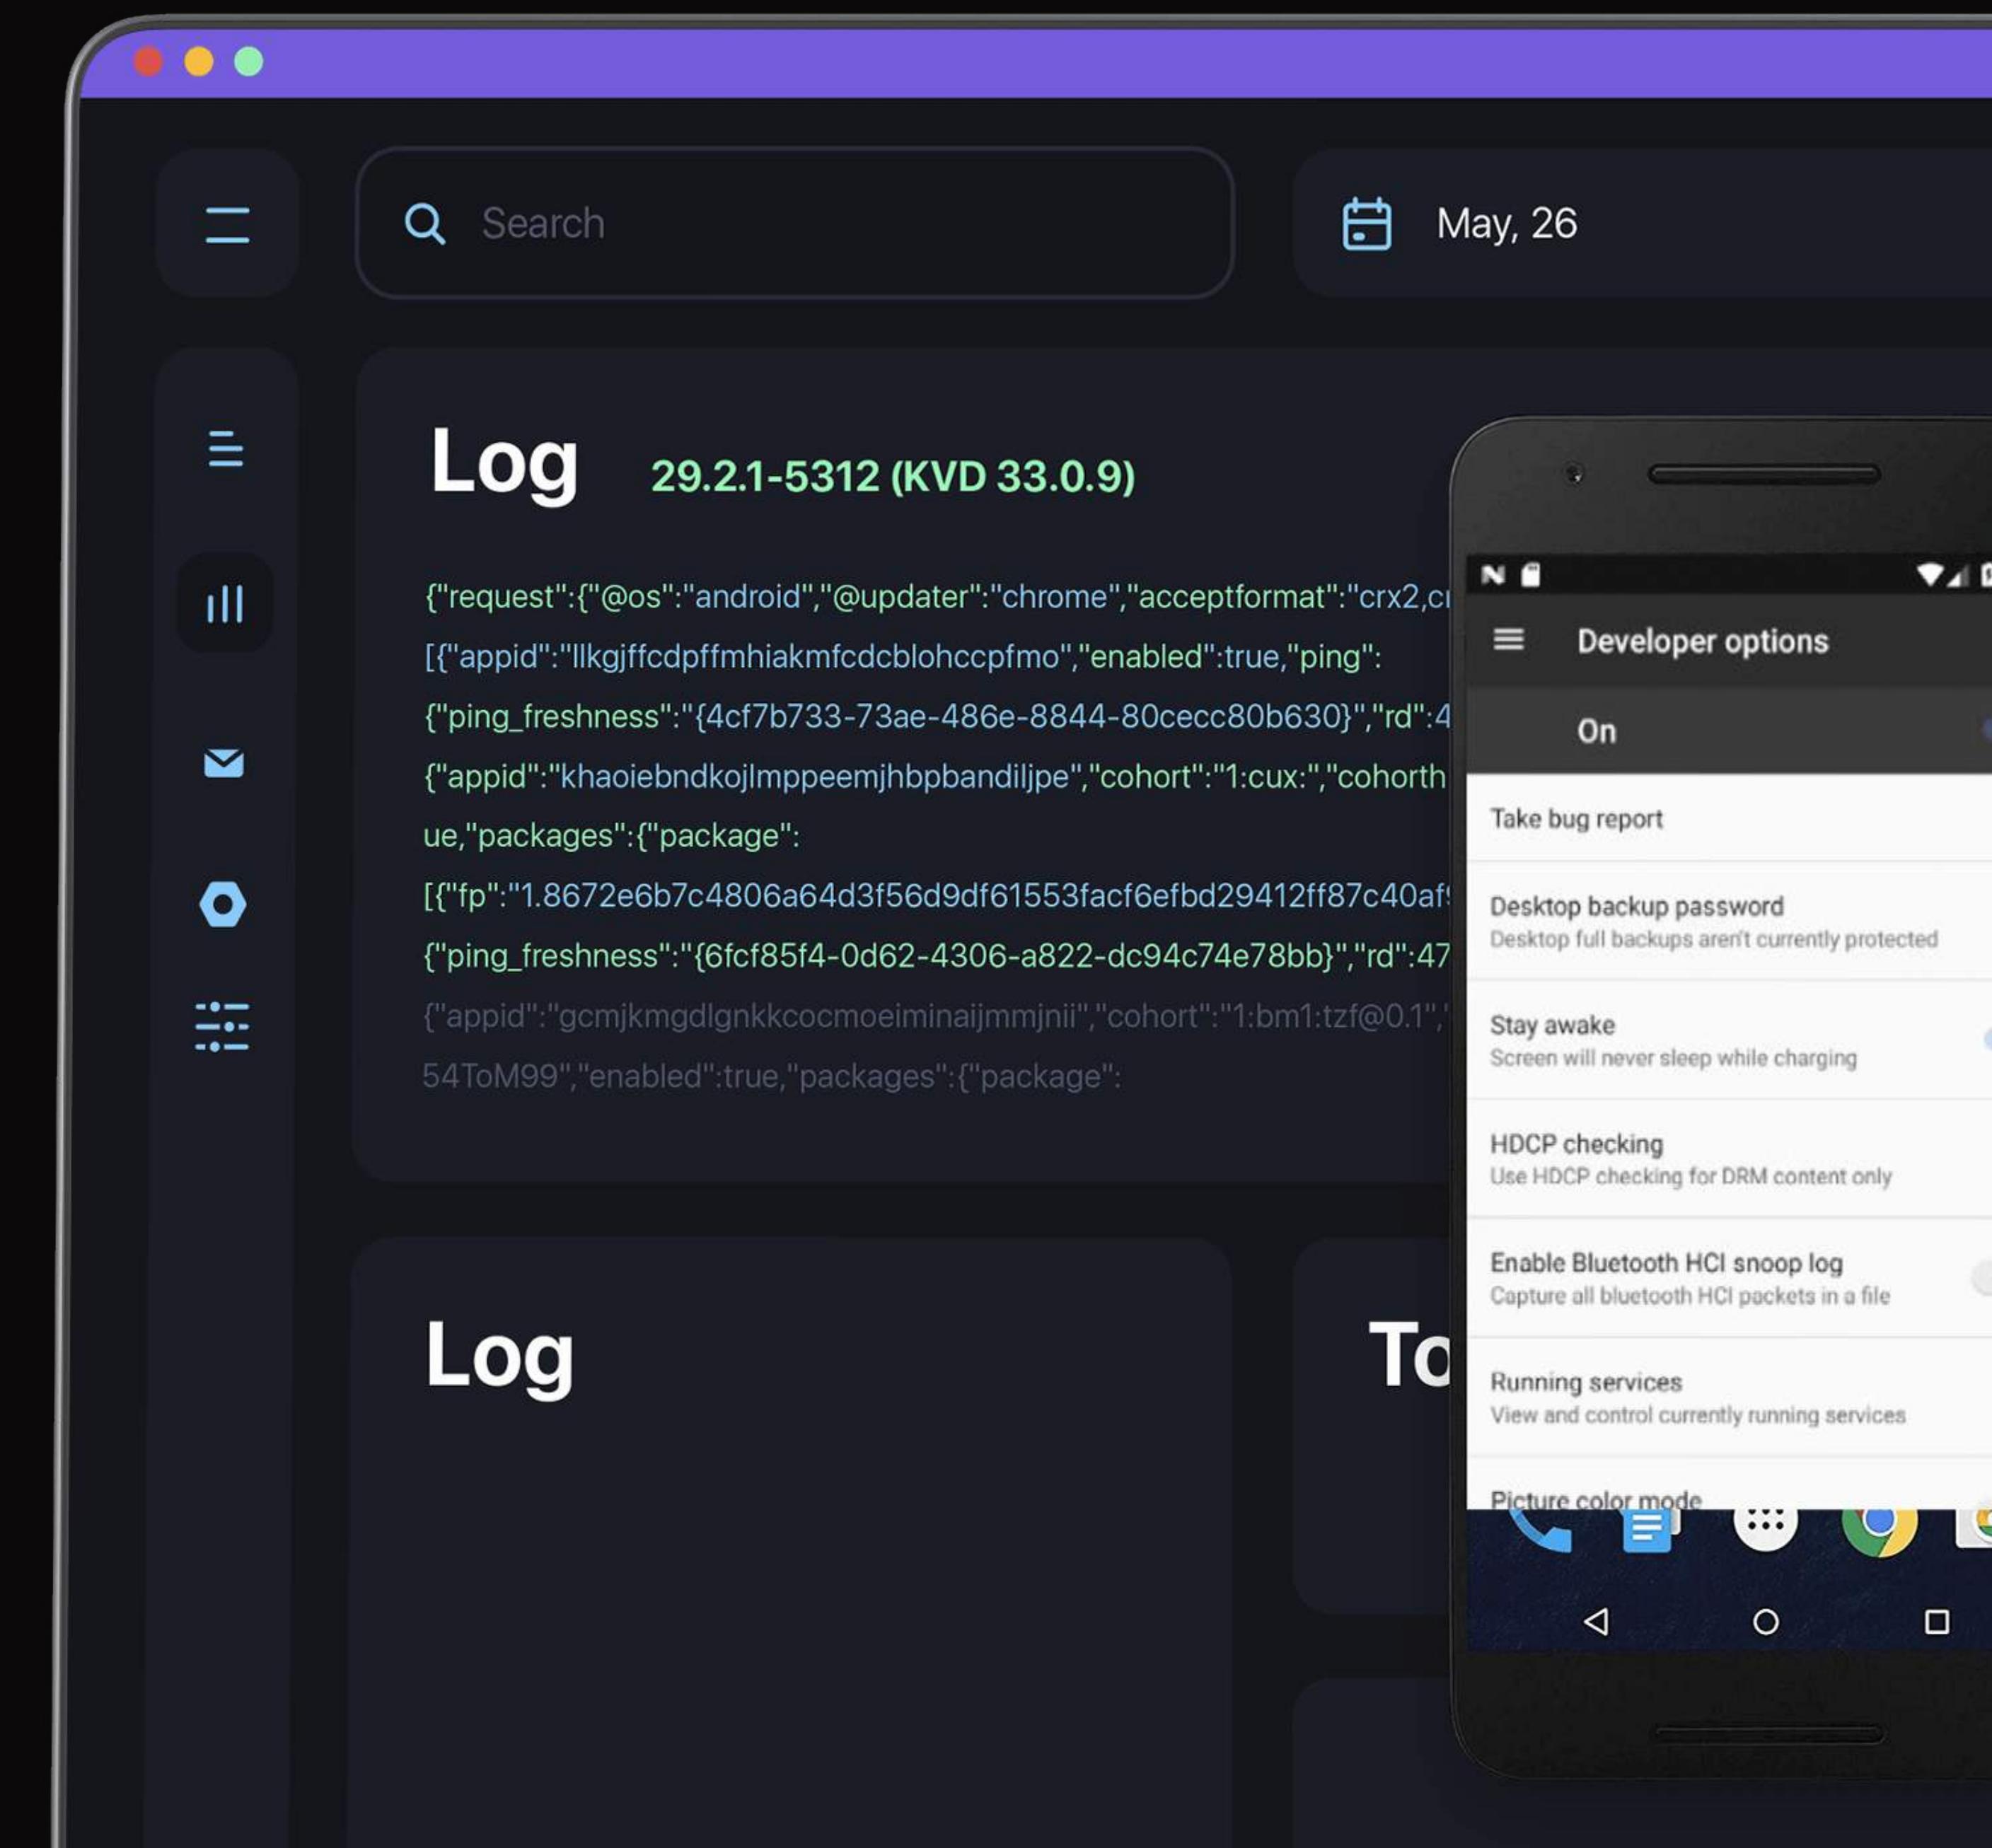

QA

Functional/Regression testing.

Integration/Load testing. Stress testing.

Security testing. UI and API Auto tests.

Backend Development

Frameworks based development.

Integration with third-party services. Working with databases. High-load architecture and design. Code and architecture audit.

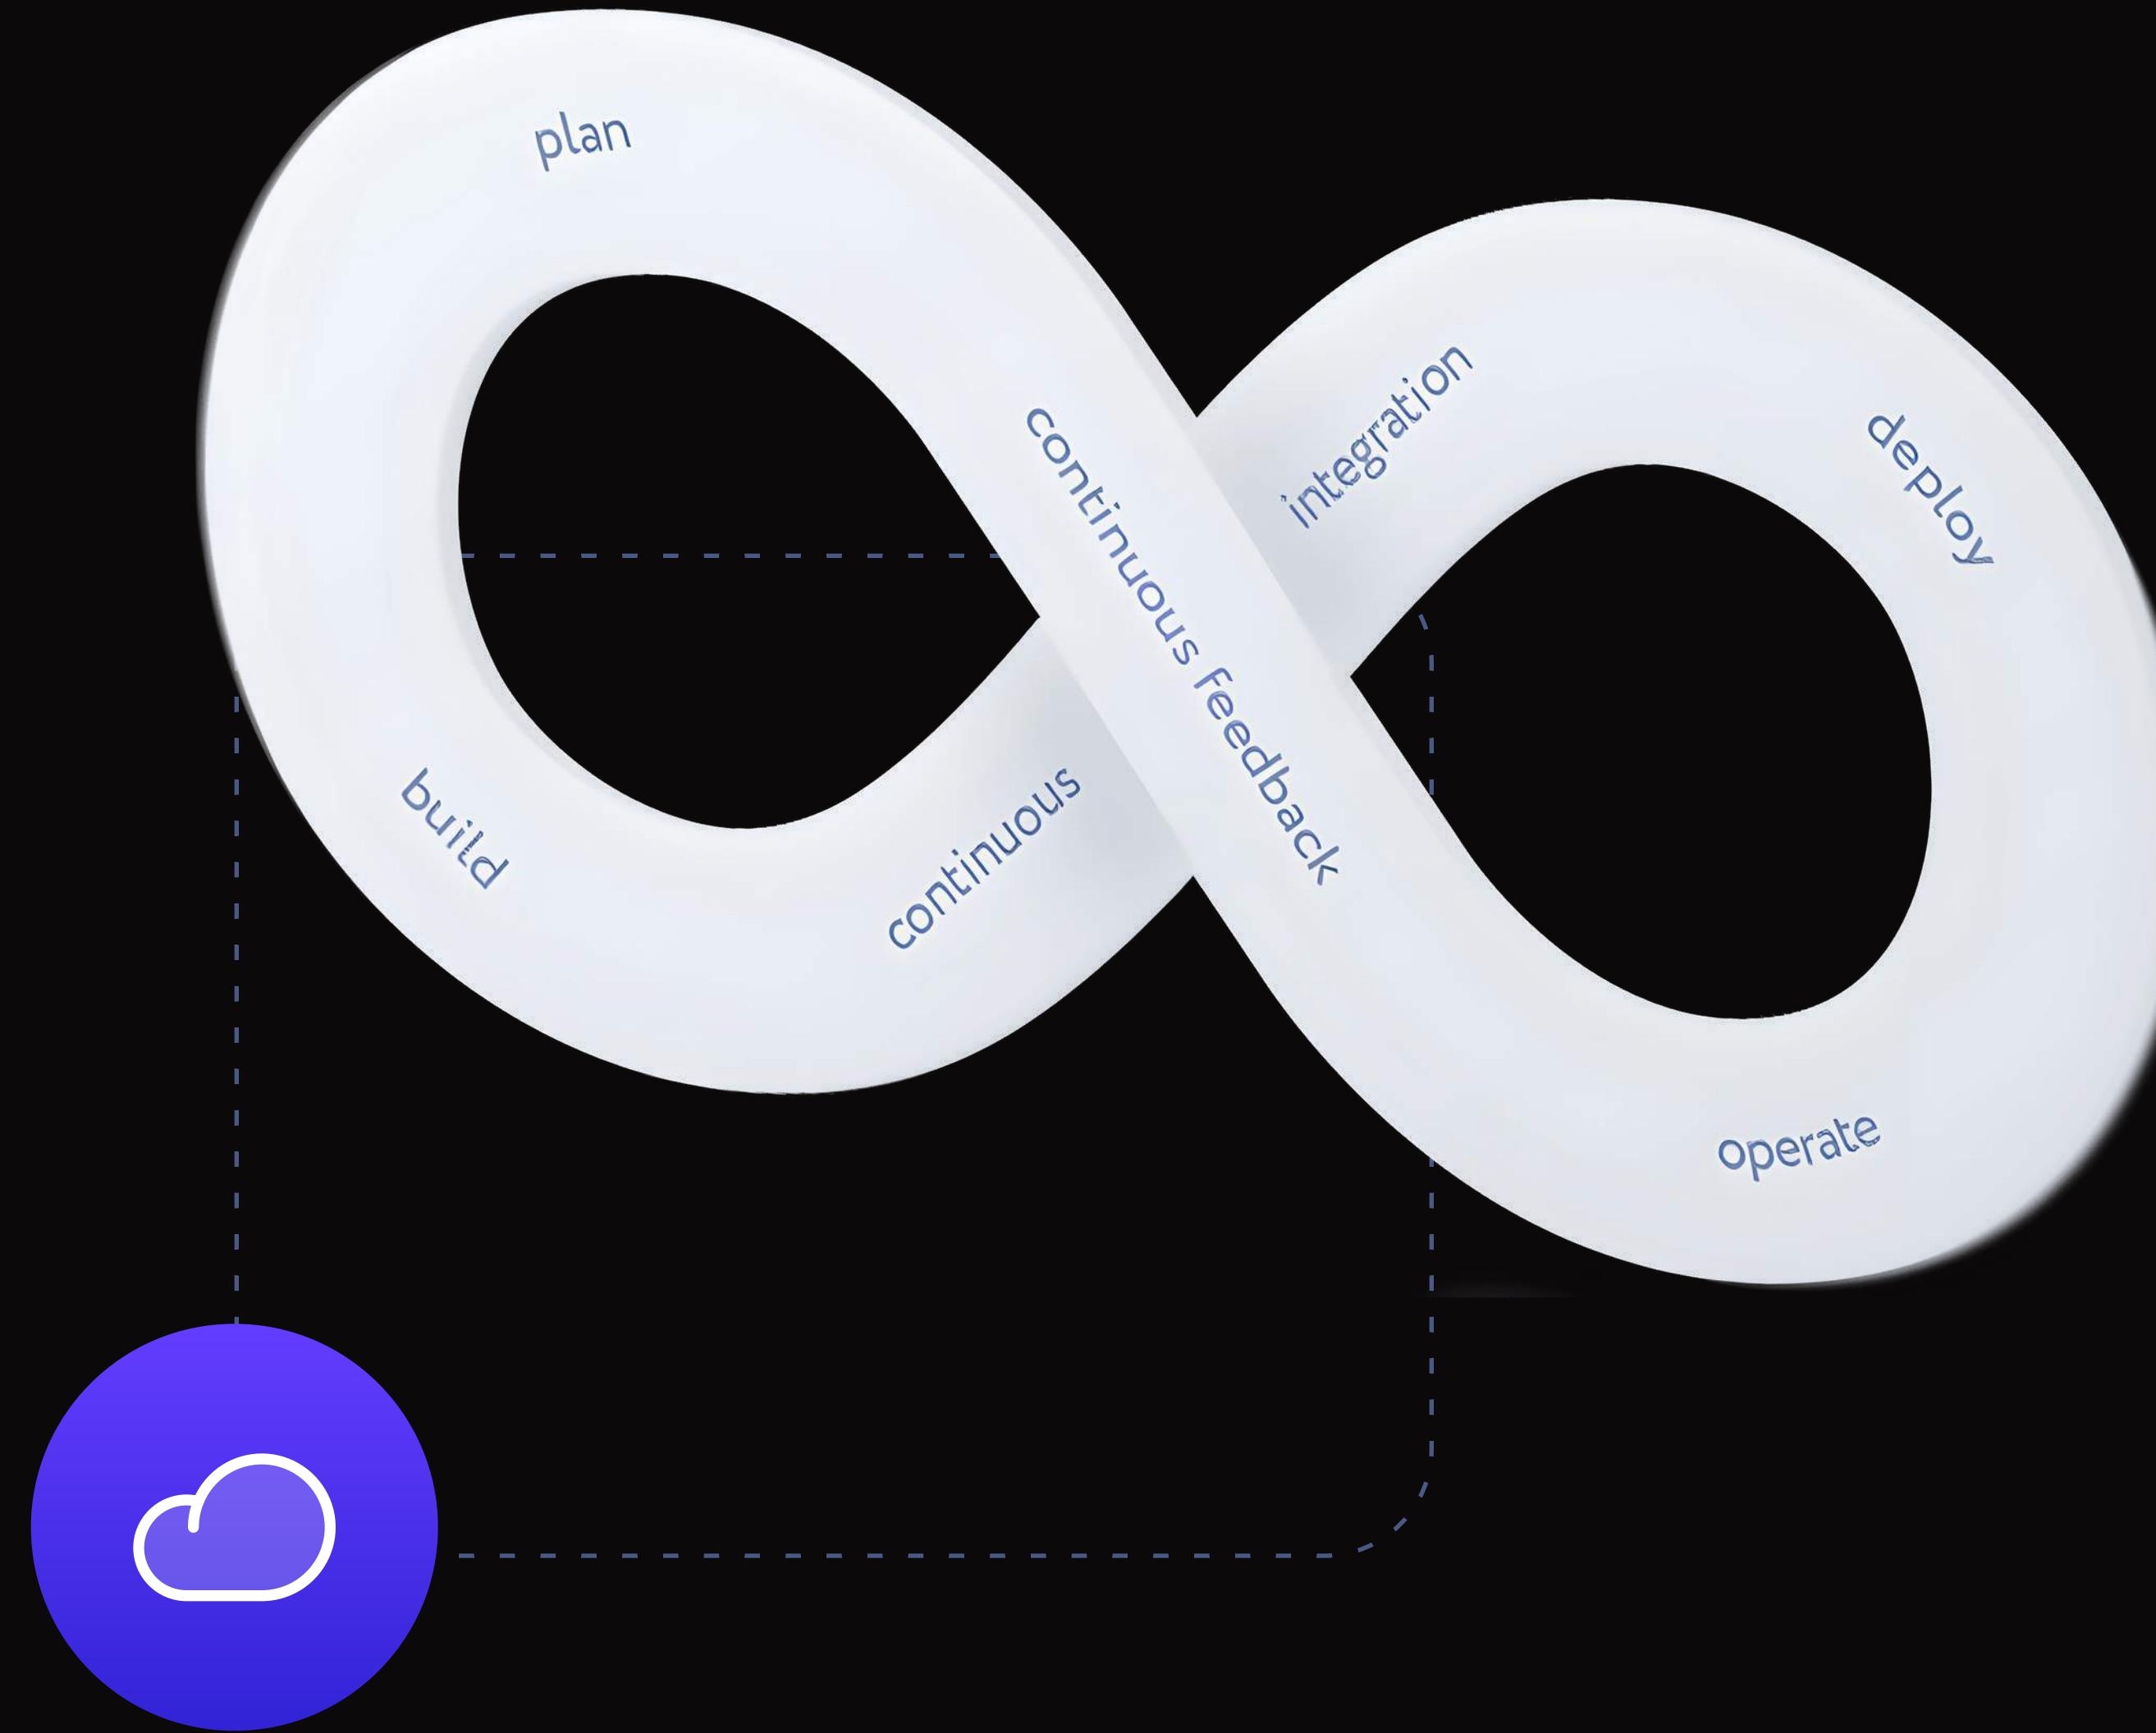

```
index.ts          app.ts           constants.ts      connect.ts      package.json
1 import * as express from 'express'
2 import * as core from 'express-serve-static-core';
3 import { authRoute } from './routes/authentication';
4 import { deviceListRoute } from './routes/deviceList';
5 import { deviceConnectRoute } from './routes/deviceConnect';
6 import { getDeviceStatusRoute } from './routes/getStatus';
7 import { setDeviceStatusRoute } from './routes/setStatus';

8
9 class App {
10     public express: core.Express;
11
12     constructor() {
13         this.express = express();
14         this.mountRoutes();
15     }
16
17     private mountRoutes(): void {
18         const router = express.Router();
19         router.post('/authenticate', authRoute);
20         router.get('/devices/list', deviceListRoute);
21         router.get('/devices/:deviceId/connect', deviceConnectRoute);
22         router.get('/devices/:deviceId/status', getDeviceStatusRoute);
23         router.post('/devices/:deviceId/status', setDeviceStatusRoute);
24         this.express.use('/', router);
25     }
}
```

DevOps & Cloud

Combining processes from development to delivery. Creating conditions in the infrastructure for normal functioning of the software. Process automation.

Our Work

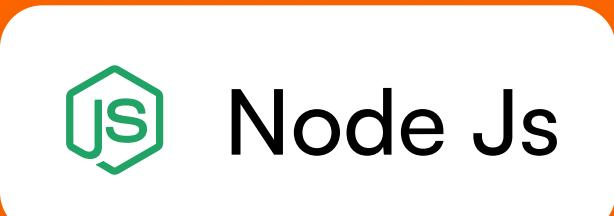

Some of our most successful projects across different industry verticals along with technologies used.

An Alpha OBS LLP Venture.

Vendor Guidance System

A web based platform that helps Bajaj and KTM automate the process of production planning and gives their vendors status of the plan in real time along with materials to be supplied. Integrated it end to end with their SAP.

UN Stamps

Developed An Interactive Online Exhibition
On Account Of 75th United Nations Day
That Featured All Stamps Commemorated
Between India And The Un Since 1949 And
The Story Behind Them.

HTML

CSS

JS

The screenshot shows a digital exhibition titled "INDIA AND THE UN: A POSTAL HISTORY". At the top left is the Indian National Emblem with the motto "सत्यमेव जयते". On the right is the United Nations India logo. The main title is displayed prominently in large white letters. Below it, a subtitle reads: "We welcome you to explore this philately exhibition that showcases the rich postal history of India and the UN over 75 years". A yellow button labeled "CLICK TO START" is visible. The background features a collage of various postage stamps from India and the UN, including one for "FREEDOM FROM HUNGER" and another for "UNESCO-25TH ANNIVERSARY". A purple banner on the right side of the stamps says "International Day of Non-Violence". A small circular icon with a blue and white design is located in the upper left area of the stamp collage.

CG Global

Revamped the entire Website for a USD 4 Billion Indian Conglomerate : CG Power and Industrial Solutions. Developed a custom built CMS on the backend featuring 44 Modules that are used to manage the data on the website.

The screenshot shows the homepage of CG Power and Industrial Solutions Ltd. The top navigation bar includes links for HOME, ABOUT, OUR BUSINESS, INVESTORS, CAREERS, NEWS & MEDIA, PRODUCT SEARCH, and CONTACT. It also features links for CALL US (9822098220), EMAIL US (info@cgglobal.com), and MARKET (173.95 -0.60 (0.34%)). Social media icons for Facebook, LinkedIn, Instagram, and YouTube are also present. The main content area features a large background image of an industrial facility at night. A prominent heading reads "Most sophisticated industrial systems." Below it, a sub-headline states: "High and Low Voltage rotating machines, motors and alternators, stampings." A yellow "KNOW MORE >" button is visible. Three smaller cards below the main image provide links to "Power", "Industrial", and "Railways" sections, each with a corresponding image and a "READ MORE" button.

BCCI Website

Developed the entire Frontend for the website of The Board of Control for Cricket in India.

HTML

CSS

JS

The screenshot shows the official website of the Board of Control for Cricket in India (BCCI). The header includes the BCCI logo, the text "THE BOARD OF CONTROL FOR CRICKET IN INDIA", and links for "INTERNATIONAL", "DOMESTIC", "VIDEOS", "PLAYERS", "NEWS", and "TENDER AND RFP". Below the header is a "QuickLinks" menu with options like "INDIA UNDER 19" and "BCCI DOCUMENTATION". A large image of a female cricketer in action is the main visual. An article about Smriti Mandhana being declared ICC Women's Cricketer of the Year 2021 is displayed, dated 25th Jan, 2022. The "MATCHES" section lists several upcoming cricket series: "WEST INDIES TOUR OF INDIA ODI SERIES 2022" (India vs West Indies, 6 Feb 2022, 1:30 PM IST), "WEST INDIES TOUR OF INDIA T20 SERIES 2022" (India vs West Indies, 16 Feb 2022, 7:00 PM IST), "INDIA WOMEN TOUR OF NEW ZEALAND ODI SERIES 2022" (New Zealand Women vs India Women, 18 Feb 2022, 3:30 AM IST), and "WEST INDIES T20 SERIES 2022" (India vs West Indies, 18 Feb 2022). Other sections visible include "Highlights: India Thru Top Group B In U19 W", "BCCI Announces Revi", and "Fixture".
